Professional Experience

Junior Financial Analyst **08/2025 – Present**

Telfer Ltd *Dublin, Ireland*

- **Financial Data Management**: Collected financial data from the accounts team, organized sales and expense details in Excel, and updated spreadsheets.
- **Financial Reporting**: Assisted in preparing monthly financial reports and summary tables for management review.
- **Excel & Data Analysis**: Used Excel to organize financial information, calculate totals, compare figures and identify errors or missing data.
- **Budget & Variance Analysis**: Compared actual sales and expenses with budget figures and previous months to identify differences.
- **Reconciliations & Data** Checking: Checked financial records against source documents and helped resolve differences in figures.
- **Financial Modelling**: Assisted with basic Excel-based financial models to organize financial data and estimate costs and expenses.
- **Month-End Support**: Updated financial records, organized supporting documents and helped prepare information for month-end reporting.

Junior Associate **08/2023 – 08/2024**

IDFC FIRST Bank *Mumbai, India*

- **Financial Reporting:** Collected, organized and maintained banking data to support daily and monthly financial and operational reporting.
- **Transaction Verification:** Entered transaction details into Excel and cross-checked information against source records to support data accuracy.
- **Reconciliation and Discrepancy Resolution:** Reviewed financial figures, identified inconsistencies and worked with team members to correct errors in banking records.
- **Excel Analysis:** Structured banking data in Excel and prepared summary tables to support reporting and information review.
- **Reporting Deadlines:** Supported the preparation of financial and operational reports within established reporting timelines.
- **Documentation and Record Management:** Maintained banking records and supporting documentation for reference and reporting purposes.
- **Audit and Compliance Support:** Assisted with audit documentation and compliance checks within a regulated banking environment.
- **Data Quality:** Updated records and coordinated with colleagues to resolve data issues and maintain accurate information.

Education

National College of Ireland **09/2024 – 09/2026**

MSc Finance |Overall Result: 2:1 Dublin, Ireland

- Built DCF and WACC valuation models to estimate company value.
- Used regression analysis to study financial and economic data.
- Completed academic projects on equity valuation, financial statements and Irish corporate taxation.

University of Mumbai **06/2021 – 04/2023**

Bachelor of Commerce – Accounting, Auditing and Taxation Mumbai, India

CGPI: 7.35/10

- Studied accounting principles, financial reporting, corporate accounting, auditing, taxation, cost accounting, budgeting, economics and operational research.

Academic Projects

Eurozone Banking and Insurance M&A Capstone Project *2026*

- Analyzed factors influencing mergers and acquisitions in the Eurozone banking and insurance sectors, considering post-COVID and global financial crisis conditions, Basel III, Solvency II and European financial-sector developments.

Mastercard Equity Valuation

- Built a Discounted Cash Flow (DCF) valuation model using WACC to estimate fair value and assess investment potential. Analyzed financial statements and macroeconomic factors using scenario and sensitivity analysis.

S&P 500 Market Regression Analysis

- Developed a multivariate regression model to examine relationships between macroeconomic indicators, including interest rates and market volatility, and equity market returns.

Irish Corporate Tax Analysis

- Researched Ireland's corporate tax framework and analyzed its implications for multinational financial reporting and investment decisions.

Certifications and Professional Development

- **Bloomberg Market Concepts (BMC):** Bloomberg for Education.
- **McKinsey Forward Programme:** Ongoing professional development in structured problem-solving, analytical thinking and business decision-making.
